

Low Cost PV&T

The best way toward energy self-consumption

EPC Solaire
Photovoltaïque 2^e Génération

Jean Paul Bousquet, CEO - EPC SOLAIRE
22/10/2015 TBB, BERLIN

➔ **Founded in 2010**

➔ **PV mounting system manufacturer (large roofs)**

➔ **Very strong Seal Membrane partners and PV modules**

➔ **2 patents**

Question about PV performance

What about the 78,5 % remaining ?

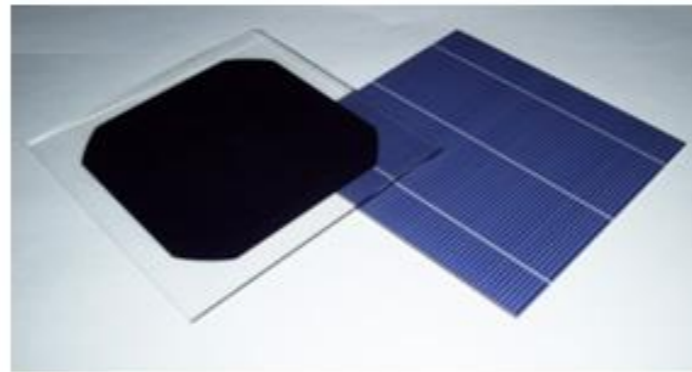

21.5 %

EFFICIENCY

While that number may not sound high, it's huge. **In fact, it's the world record for highest efficiency silicon solar panels.**² Delivering more power for our customers each and every day.

² Green, M.A., et al. "Solar Cell Efficiency Tables: (Version 43)," Progress in Photovoltaics, 2014.

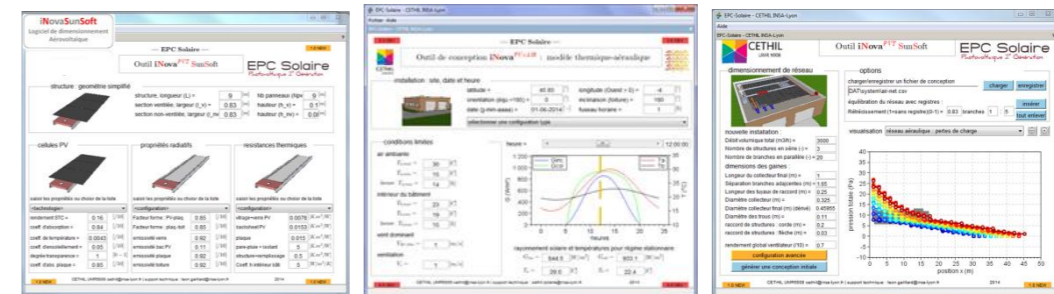

EPC Solaire
Photovoltaïque 2^e Génération

Our solution

1- Heat recovery supports for standard PV panels

2- Dedicated software

3- Control unit and monitoring box

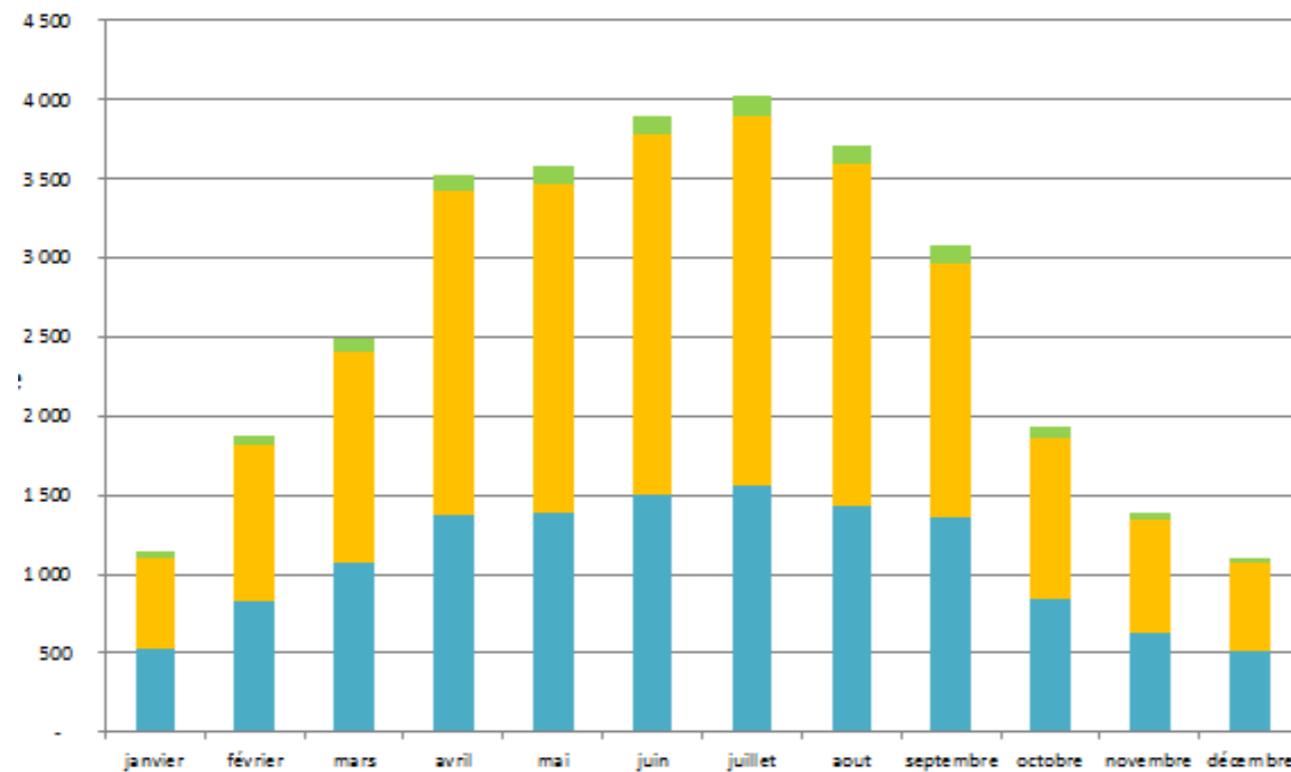

What is the gain over 12 month ?

Standard PV production in kWh

Thermal Extra production in kWh

Extra PV production in kWh

Target customers

COMMERCIAL

PREHEATING AIR +
PREHEATING WATER
PV IMPROVEMENT

AGRICULTURAL

PREHEATING + VENTILATION SYSTEMS
PV IMPROVEMENT

INDUSTRIAL

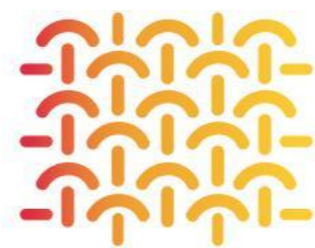

PREHEATING + VENTILATION SYSTEMS
PV IMPROVMENT
