

Get Data, Save Money

We help energy utilities to increase their customer satisfaction and reduce their energy purchasing costs

Sergio Ferrer – CEO Enerlin
21-22 October 2015, TBB Berlin

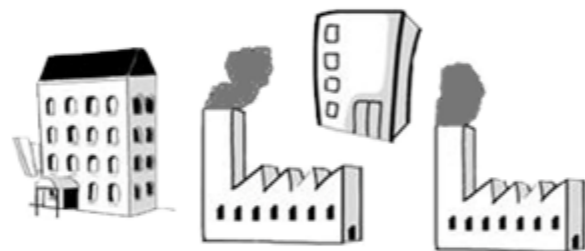

The Energy Market

Lack of real time electric data increases financial and deviation costs.

→ Data / bill flow

→ Cash flow

ENERGY UTILITIES

Our Solution for Energy Utilities and Industries

The Enerlin plug&play telemetry system permits an easy connection to existing electric meters. With it, energy utilities and their industrial consumers will be able to receive the energy consumption data instantly.

We connect our device to this port

Our Value Proposition for Energy Utilities

- ✱ Improve consumption forecasting and reduce deviation cost.
- ✱ Reduce their overall financial cost.
- ✱ Get better cash flow.
- ✱ Build customer loyalty and reduce churn.
- ✱ Reduce administrative costs by minimizing billing errors.
- ✱ Without initial investment .
- ✱ With a fixed monthly price for our service proportional to the savings generated.
- ✱ With a contract period of 1 year, equal to the period of contract they have with their customers.

The Team

Enerlin is composed by a group of experts in IT and the energy sector.

Sergio Ferrer
CEO

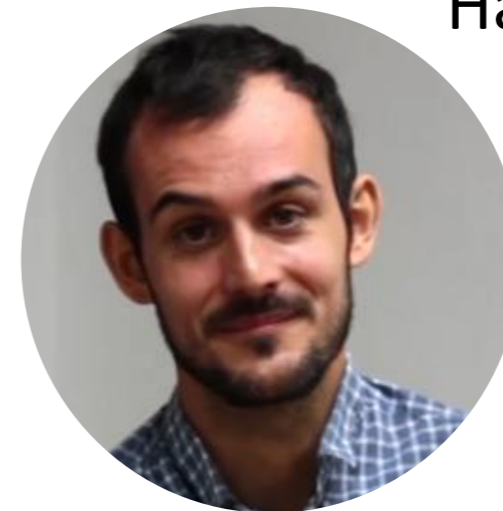

Javier Servera
COO

Arturo Sapiña
