

Manufacture of hydraulic turbines to generate electricity, using the excess of pressure present in the water pipes.

TECNOTURBINES
POWERING WATER

JAIME LLEDÓ,
CEO & Co-Founder Tecnoturbines

2 Who is behind Tecnoturbines?

CEO Jaime Lledó

CTO Enrique Ruiz

CFO Jaume Bonet

R+D Carlos Orts

Production Joaquín Orts

Export Manager – Carlos Rojas

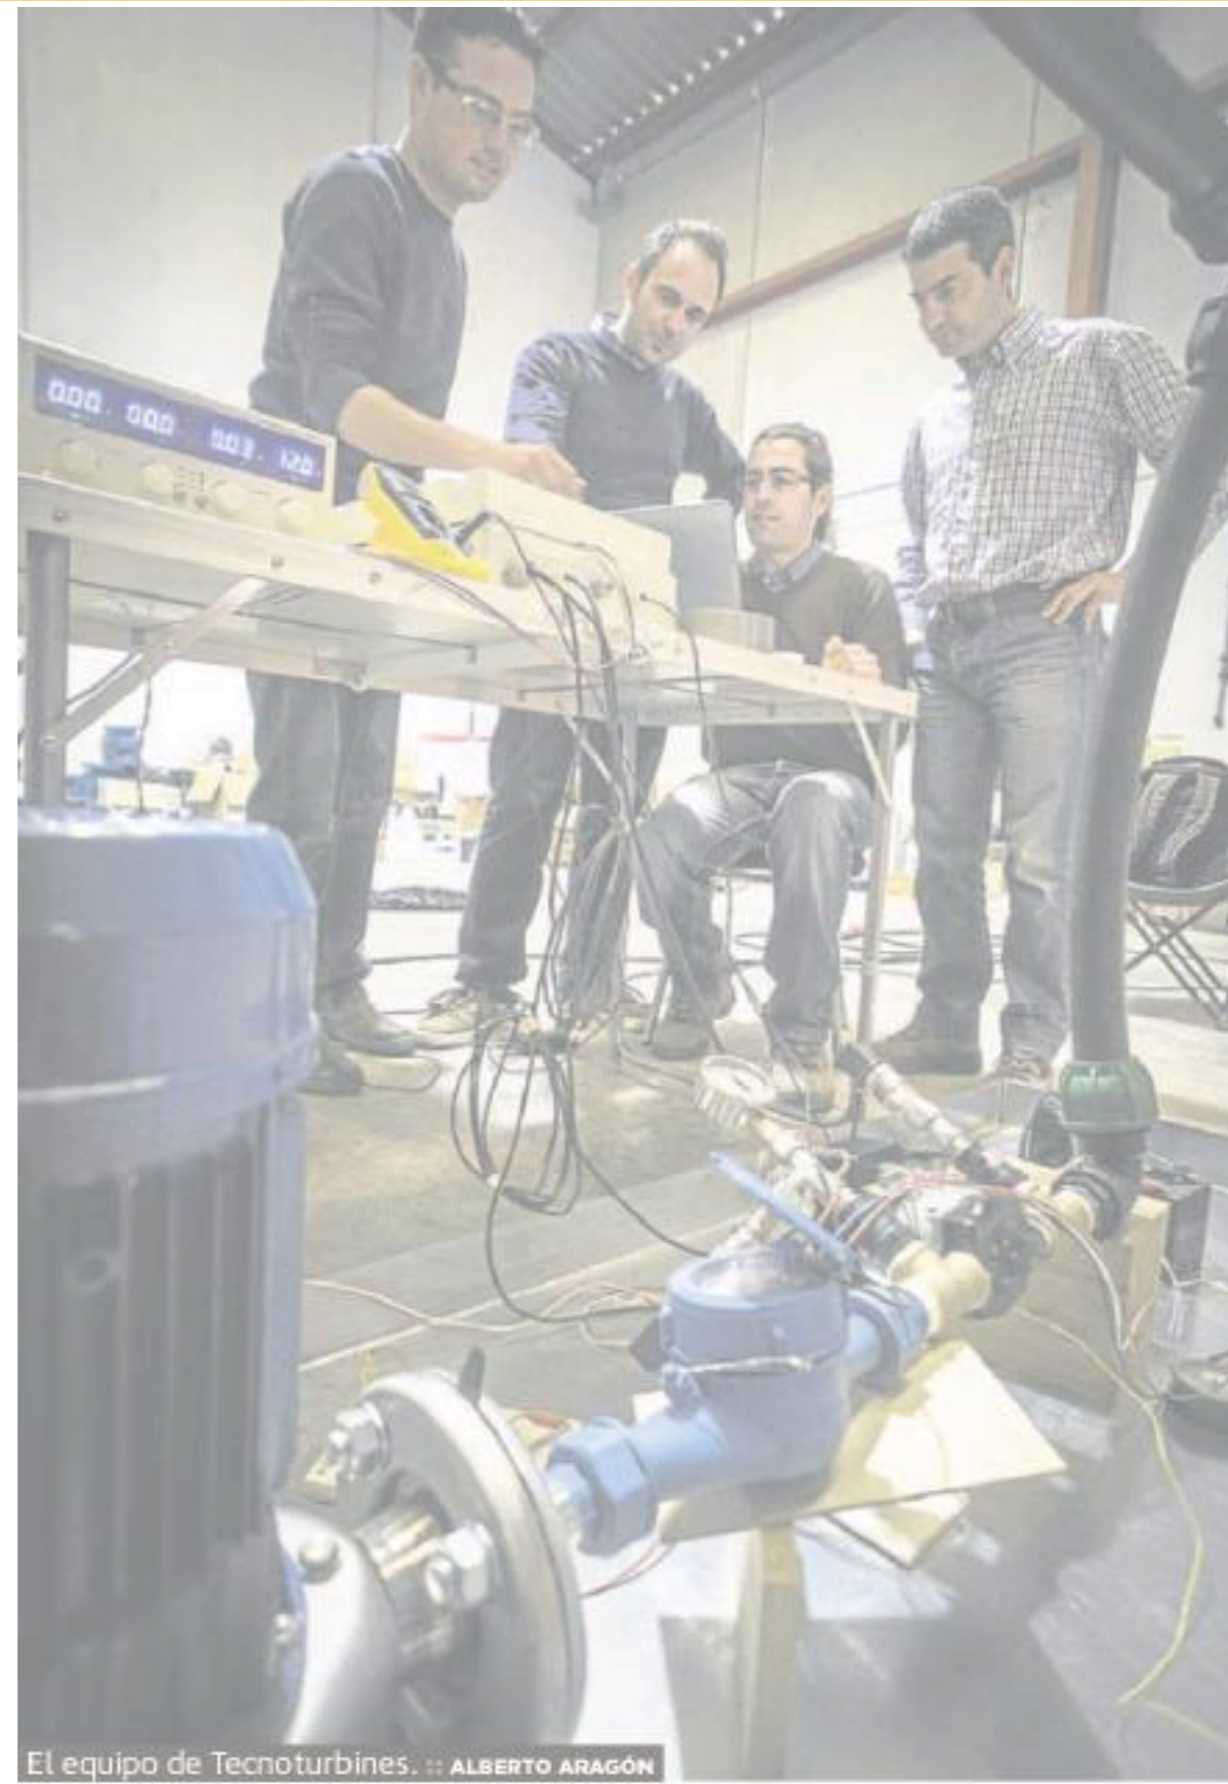

Advisory Board:

KIC InnoEnergy: JM

Torregrosa

FLUIDRA: Xavi Servat

Secretary from **Roca Junyent**

El equipo de Tecnoturbines. :: ALBERTO ARAGÓN

3 What do our customer want?

1 Energy cost reduction.

2 Excess of pressure reduction in water

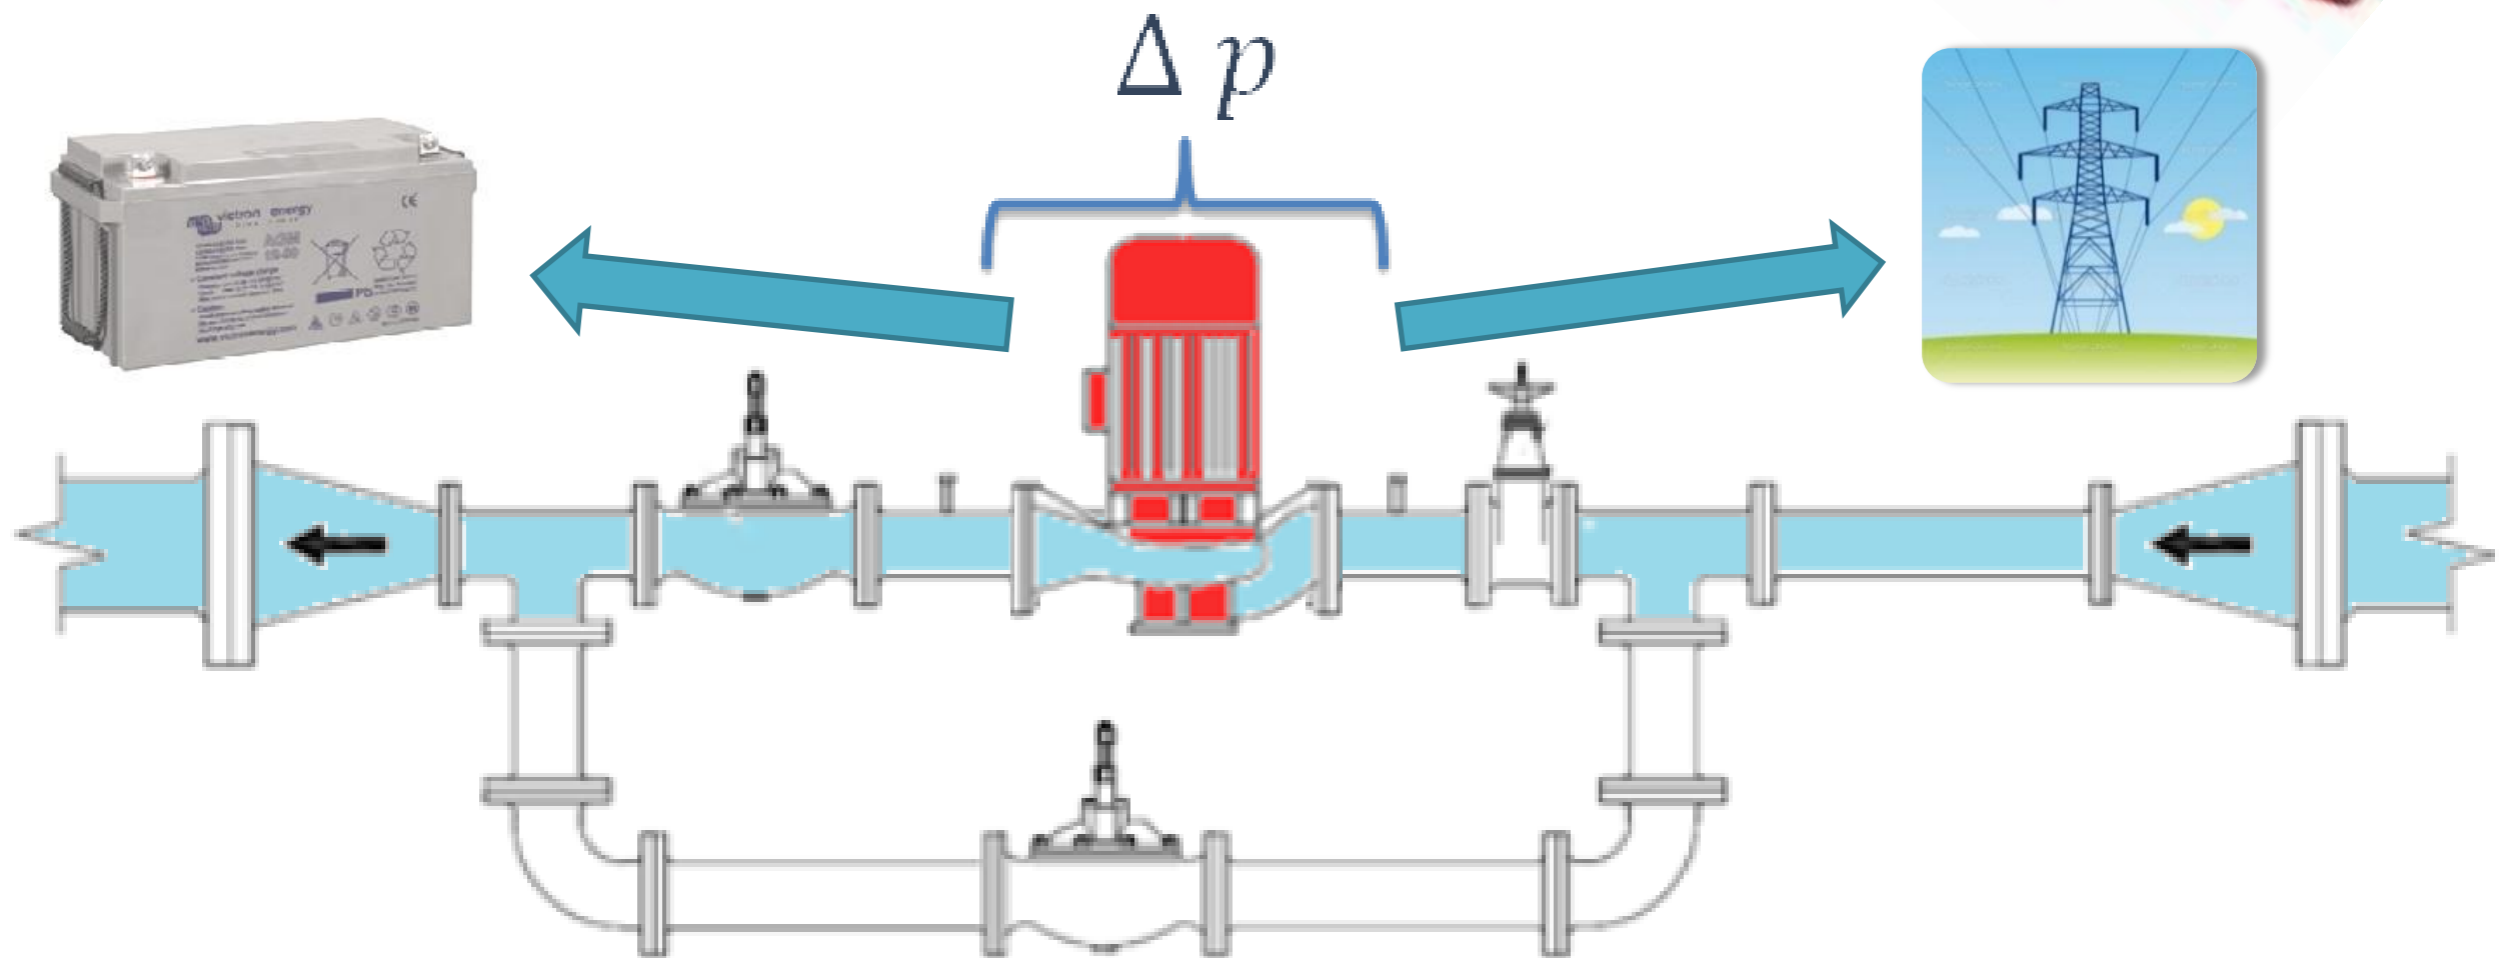

3 Energy supply remote locations – Energy Solution

4 Technology

Designed to recover energy from water supply networks.

PATENTED

5 Advantages

Works under **differential pressure.**

Very **simple** and **low Maintenance.**

Very **little space** required for **installation.**

Quick installation.

Works under **variable hydraulic condntions.**

PAYBACK: 1 to 4 Years
IRR: 35% to 100%

GRID TIE TYPE:

80% of SAVINGS in Civil Works

BATT. CHARGING TYPE:

- Continues source of Energy.
- Less battery needs.
- It does not waste water.
- Vandalism.

6 Total Estimated Market.

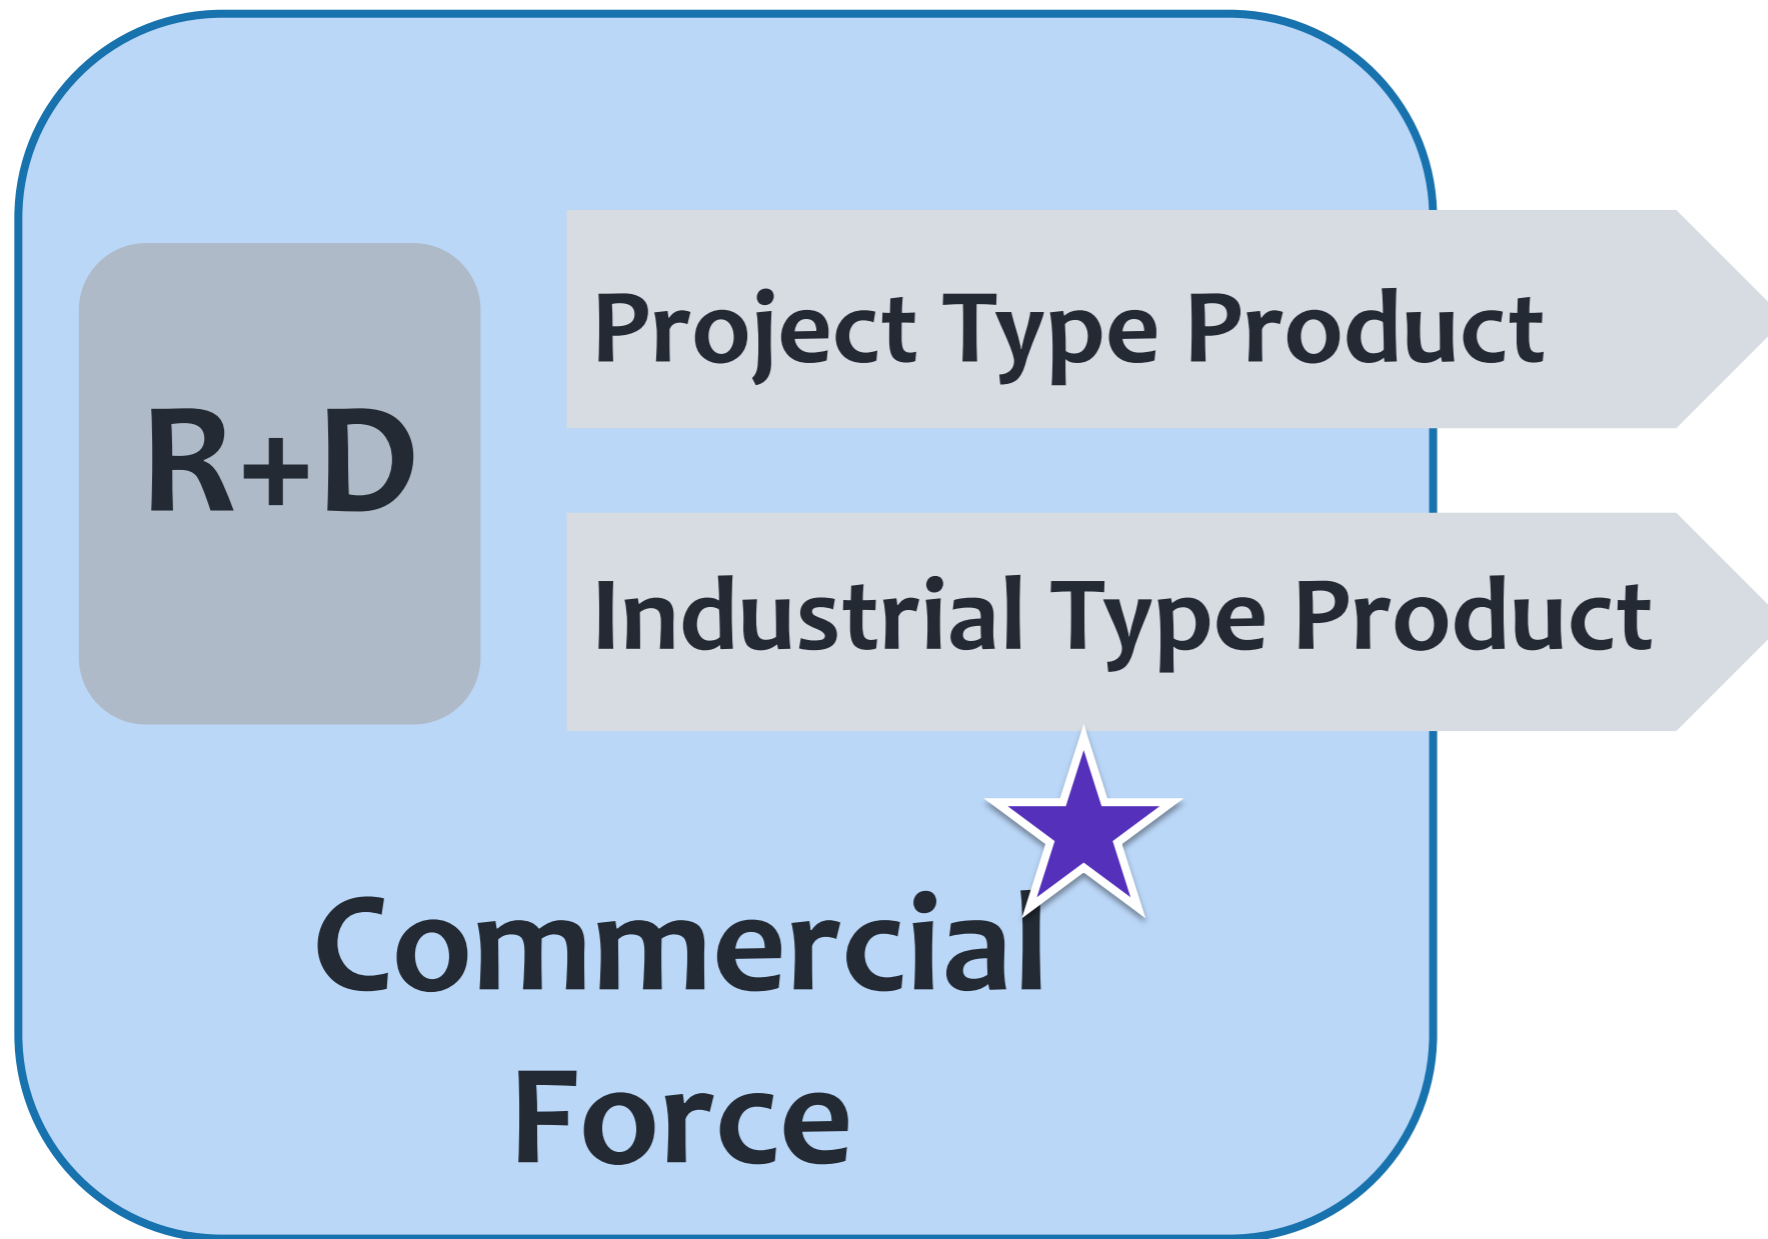

SPANISH Market.

190 M€

EUROPEAN Market.

3.400 M€

Thank you for your attention.
